Overall Length:

9.703 inches

End Application:

Sats

Wrenching End Outside Diameter:

0.875 inches

Drive End Outside Diameter:

0.812 inches

Large End Head Thickness:

0.391 inches

Small End Head Thickness:

0.359 inches

Wrenching Surface Size:

14.0 millimeters first end

Wrenching Surface Shape:

12 point both ends internal

Wrenching End Offset Angle:

15.0 degrees

Special Features:

Weight 0.39 lbs full polish finish provides corrosion resistance

Material:

Steel

Surface Treatment:

Chromium

Style Designator:

Shallow angular offset double head

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A102a0
