Current Type:

Ac or dc

Carrying Case:

Provided

Voltage Rating:

220.0 volts

Rotational Speed Rating In Rpm:

5700.0

Plug Connector Type:

3-prong

Motor Armature Axis Position:

Parallel to saw blade spindle axis

Vertical Cut Depth:

3.750 inches

Dado Head Accommodation:

Not included

Features Provided:

Electromagnetic interference suppression

Specification Or Standard:

1 type and 10 size

Departure From Cited Designator:

As modified by voltage rating

Reference Number Differentiating Characteristics:

As modified by voltage rating and electromagnetic interference suppression

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T294-z
