Handle Type:

Body grip

End Application:

Support equipment for c17 acft

Accessory Components And Quantity:

Motor assembly (35mc), angle attachment (at217), head assembly (bh217t5-se17)

Drive End Type:

Female spindle

Drive For Which Designed:

Angular

Features Provided:

Air volume regulator

Angle:

45.0 degrees

Special Features:

Torque capacity is 80-100 in-lbs; performance rated at 90 psig; air inlet.25 in n.P.T; the seating torque range is 81 through 160 in-lbs; drive end shape: flat; grip handle

Functional Description:

Designed to instal (-10ms) type fasteners in tight access area

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
