Adjustability:

Nonadjustable

Design Type:

Single face

Overall Outside Dimensions:

1 in. Diameter base

Vial Quantity:

1

Vial Graduations:

Not included

Vial Surface Finish:

Ground

Vial Type:

Level

Special Features:

7 mm circle; storage temperature range of -85 degrees f to plus 185 degrees f; top surface of the flange is ground parallel to the base or the level

Material:

Brass

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T370-a
