End Application:

F16 support eg

Special Features:

Gage, depth, shaft; used to gage the allowable depth for removal of material from id of output spline shaft of p/n 2489964 or p/n 2494427 or p/n 2497346 output coupling assembly during balancing operation when overhauling the pto shaft; measures 3 1/4 in. Lg with 1 in. Dia., weighs approx. 8 oz., matl is steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T299-h
