Design Type:

Bench mounting

Contact Point Operation Method:

Spring

Measuring Head Type:

Pin or plug

Special Features:

C/o 3 dial indicators; rqrd to inspect no. 2 bearing support for lateral displacement of the intersection of the axis of the rear flange datum diameter, w/axis of the towershaft bore datum diameters; 29.10 in. Lg by 17.00 in. Wd by 8.00 in. Ht; c/o 3 major components, 1-steel plate that holds 3 dial indicators and has a pin w/knurled handle, used to zero 2 of the indicators 2-pair of expandable plugs to align shaft axis 3-precision steel shaft

Reference Data And Literature:

Serd 1311

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T299-g
