End Application:

F100-pw-229

Product Name:

Gage, indicator id (forward)

Special Features:

Consists of a dial indicator and steel frame assembly with radial and axial details

Functional Description:

Used to measure the dimensions of the 2nd stage compressor stator assembly forward inner airseal rubber

Reference Data And Literature:

Serd 7456

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T299-z
