End Application:

Gbs

Adjustability:

Nonadjustable

Design Type:

Single face

Overall Outside Dimensions:

1.000 in dia

Vial Quantity:

1

Vial Arrangement:

Single

Vial Graduations:

Not included

Vial Graduation Value:

0.218 diameter circle on glass with crosslines

Vial Surface Finish:

Unground

Vial Type:

Bubble

Special Features:

Qfinish: chrome plate; sensitivity: 45 minutes, porm 10 percent for each0.1 in movement of the bubble; 3 mounting holes at 120 deg; configuration on glass is black ceramic; face dia: 0.500 in; height: 0.437 in

Material:

Brass

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T370-a
