**Adjustability:**

Nonadjustable

**Design Type:**

Electric

**Product Name:**

Fluid damped inclinometer

**Special Features:**

Input range: +14.5, full range output, vdc+0.5%: +5.0, scale factor, volts/g : 20.0, scale factor temp sens, ppm/degree c max: 100, natural frequency, hz : 30, bandwidth (-3db), hz : 30, input axis misalignment degree max: 0.05, bias, volts max: 0.100, zero tilt temp sens, volts/degree c max: 0.001, resolution and threshold, urad max: 1.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T370-a
