Adjustability:

Nonadjustable

Design Type:

Electric

Product Name:

Fluid damped inclinometer

Special Features:

Input range: +14.5, full range output, vdc+0.5%: +5.0, scale factor, volts/g : 20.0, scale factor temp sens, ppm/degree c max: 100, natural frequency, hz : 30, bandwidth (-3db), hz : 30, input axis misalignment degree max: 0.05, bias, volts max: 0.100, zero tilt temp sens, volts/degree c max: 0.001, resolution and threshold, urad max: 1.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T370-a
