Accessory Components And Quantity:

Batterys included

Measurement System:

English

Product Name:

Digital calipers

Special Features:

Runs for 10, 000 hours

Functional Description:

Calipers measure outside and inside diameter, and debth

Material:

Steel

Special Test Features:

Calibrated in an iso 17025 lab accredited by a2la

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T299-n
