End Application:

T56 engine

Special Features:

Calculator, engine performance; 9.000 in. Long, 2.500 in. High, slide rule type calculator, case material transparent vinylite-slide opaque vinylite, slides shall move only under pressure, calculator gives readings of installation effect, performance, indicator torque, ambient temp., pressure-altitude, altimeter reading at 29.92 in.Hg, ambient temp., horsepower-torque, above description is face of calculator; reverse as follows-gives turbine inlet temp., ambient temp., turbine inlet temp., installation effect, pressure-altitude, altimeter reading at 29.92 in. Hg, performance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-b
