Gaging Member Outside Diameter:

0.4330 inches

Gage Hole Type:

Blind

Special Features:

Used during depot maintenance of pump and motor assemblies of the f-15e integrated drive generator, to measure piston bores of p/n 735609 cylinder block to determine group size, bore wear, and roundness; mounts onto gaging head of m01-10m measuring gage; approx 3 in. Lg; approx .50 lb; matl steel; serd no. 5124

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-b
