End Application:

F100-pw-229

Special Features:

Master, indicator gage; precision steel beam with hardened gage blocks attached to each end; o/a length 22.8530 porm 0.0002 in; used for calibration check of pwa71174 indicator gage

Supplementary Features:

Serd 7324

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-b
