Overall Length:

14.500 inches

Overall Height:

3.250 inches

Overall Width:

0.500 inches

End Application:

C17 rail assembly 17p2g1000

Special Features:

Used at organization level maintenance to determine if the required dimensions are within the required tolerances for the ten left and ten right hand ads rail assemblies (p/ns 17p2g1301 and 17p2g1000 respectively) positioned end to end the length of the main cargo floor; and the two left and two right hand ads rails (p/n 17p3g2000) inline with those on the cargo floor. Manufactured per best commercial practice; may not meet se gen specification mdc s003

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
