End Application:

F100-pw-229

Special Features:

Setmaster-no 3 bearing air seal, forward snap diameter; used to pre-set pwa72504 gage to zero prior to use; also used for to verify the integrity of the hydraulic chuck detail of pwa72489 machining fixture during set up; inner diameter: 5.60125 in; tolerance: plus 0.00025 in; ov diameter 8.0 in; ht 1.5 in; wt 2 lbs

Supplementary Features:

Serd 9188

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-e
