**End Application:**

F100-pw-229

**Special Features:**

Setmaster-no 3 bearing air seal, forward snap diameter; used to pre-set pwa72504 gage to zero prior to use; also used for to verify the integrity of the hydraulic chuck detail of pwa72489 machining fixture during set up; inner diameter: 5.60125 in; tolerance: plus 0.00025 in; ov diameter 8.0 in; ht 1.5 in; wt 2 lbs

**Supplementary Features:**

Serd 9188

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T303-e
