End Application:

F100-pw-100, 200, 220, 220e

Gaging Surface Outside Diameter:

28.6200 inches

Special Features:

Set master, 1st stage turbine, stator support, outer; used to check the integrity of pwa72326 fixture prior to finish machine of weld repaired

1st stage turbine stator outer support lugs

Supplementary Features:

Serd 8945

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-e
