End Application:

Af metcal; ground support equipment

Special Features:

Computerized version of model 130b-24; provides solid state electronic surveillance and calibration of gage blocks; system contains a solid state amplifier and gage block comparator; digital readout meter has a range of porm 199.9u in, porm 5u meter, and digit value of 0.1u in, 0.01u meter; stepping switches allow a series of gage blocks to be gaged without mechanical adjustment; computer and software included

Supplementary Features:

Consists of 61971 wvaj2 depth gage, digital; 1475t electronic weigh scale; 1001678 dynamometer; 2 inch optical flat; 130b-38af gage block compartor system 130b-24 gage block comparator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T303-b
