End Application:

C-141 aircraft

Design Type:

Double end

Gage Type:

Acceptance check and combination go not go

Gaging Member Outside Diameter:

0.2500 inches

Air Groove Feature:

Not included

Ring Gage Type For Which Designed:

Minor diameter of go thread

Special Features:

Blade end used for checking starting hole diameter and round end used for checking final hole diameter; made of steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-b
