End Application:

Used on actuator vg j85-ge-21

Gage Type:

Combination go not go

Criticality Code Justification:

Feat

Special Features:

Gage includes pins 21c6166p11 and 21c6166p12, prior to positioning gage to actuator, bolt 3009t13p02 and pin 3009t22p08 are removed, pins p11 and p12 are installed; once measurements are taken pins p11 and p12 are removed and bolt p02 and pin p08 are reinstalled, serd 10039

Length:

12.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T303-b
