End Application:

F100-pw-100/200/220/220e engines

Special Features:

Mstr, inspection-1st stage compressor disk and hub, outside diameter; used to set gage pwa500545 to zero; consists of storage container; 2.0 in high; serd 9906

Length:

10.000 inches

Thickness:

7.000 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T303-b
