Overall Height:

4.5 inches

Voltage In Volts And Current Type:

3.0 dc

Product Name:

Dual element corrosion thickness guage

Special Features:

Field calibration of all material, high speed scanning, and backlit display; multi-functional 4.5 digital liquid chrystal display with 0.500 inch backlight is selectable on/off/auto; displays in inches/microsecond, millimeters, and meters/second. Keypad resistant to both water and pteroleum products.

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
