End Application:

F-15 support equipment

Product Name:

Gage set, threaded coupling

Reference Data And Literature:

To 1f-15a-4-6

General Description:

Item consists of 13 separate gages on a 12 in. Cable loop, 11 of these gages are needed to check all the different sizes of standard couplings and the other 2 gages are needed for checkout of the forward left and right heat exchanger coupling, proper engagement of the standard coupling can be verified by placing the appropriate gage over the coupling, if the gage fits, the coupling is properly engaged, the heat exchanger forward coupling gages are designed not to fit when the couplings are properly engaged, if gage fits, couplings must be retightened, size 0.12 in. High, 1.0 in. Wide, 2 in. Long, each
