End Application:

F100/200/220/220e/220f/229

Product Name:

Gage, main spark igniter

Special Features:

Gage is a steel circular body w/ threads on one end and contains an internal plunger and rotatable pointer; a set master, snap gage w/ dial indicator, and container are included

Functional Description:

Measures the correct thickness of classified spacer used when installing the main spark igniters into the combustion chamber insuring proper immersion depth

Reference Data And Literature:

Serd 7938

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23800
