Criticality Code Justification:

Feat

Special Features:

Specific allowances for the cadmium plating; torque rating of the bolt recess; requires specific requirements for material; various size tolerances

General Description:

C/o screw and rubber sleeve permanently bonded, 0.190-32 nf-3a modified thd, 0.900 in. Fastener lg, torq-set recess drive per nas 1078, screw is steel 4130 cadmium plated, 160000 psi min tensile strength

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
