Fastener Length:

Between 0.719 inches and 0.781 inches

Head Style:

Pan

Head Diameter:

Between 0.205 inches and 0.219 inches

Head Height:

Between 0.070 inches and 0.080 inches

Internal Drive Style:

Cross recess type 1

Features Provided:

Casehardened

Nonmachine Thread Style:

Gimlet point (type a, ab or ba)

Nonmachine Thread Diameter:

0.112 inches

Material:

Steel

Material Specification:

66 federal standard all material responses

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 3 federal specification single treatment response

Specification Or Standard:

Ab type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A003b0
