**Thread Direction:**

Right-hand

**Thread Length:**

3.000 inches

**Fastener Length:**

3.234 inches

**Head Style:**

Hexagon

**Thread Diameter:**

0.375 inches

**Min. Tensile Strength (psi):**

120000 pounds per square inch

**Special Features:**

These 3/8"-16 x 3"screws are grade marked on top of the head (three radial lines indicate grade 5) .Meet sae j429.Length is measured from under head. These cap screws are also known as tap bolts.

**Material:**

Steel

**Surface Treatment:**

Zinc

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A003b0
