Fastener Length:

2.000 inches

Head Style:

Hexagon

Head Height:

Between 0.302 inches and 0.323 inches

Width Between Flats:

Between 0.736 inches and 0.750 inches

End Application:

2350-01-502-0586 expeditionary fighting vehicle

Thready Qty Per Inch (tpi):

13

Min. Tensile Strength (psi):

11300 pounds per square inch

Material:

Steel

Surface Treatment:

Passivate

Supplementary Features:

O/a body diameter: 0.493-0.500 in; width across corners: 0.840-0.866 in; radius: 0.015-0.025 in

Thread Series Designator:

Unc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A003b0
