Thread Direction:

Right-hand

Thread Length:

80.0 millimeters

Fastener Length:

80.0 millimeters

Head Style:

Hexagon

End Application:

MRAP-CA-T1S-USPE

Thread Diameter:

20.0 millimeters

Product Name:

M20-1.5 x 88mm 8.8 din 961 full thread plain hex cap screw

Special Features:

For tapped hole; washer face under head; chamfered point; specific material is medium carbon steel equal to sae grade 5

Material:

Steel property class 8.8

Thread Series Designator:

Iso m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A003b0
