Thread Direction:

Right-hand

Thread Length:

Between 0.245 inches and 0.360 inches

Fastener Length:

1.000 inches

Head Style:

Knurled no. 5

Head Diameter:

0.375 inches

Head Height:

0.437 inches

Internal Drive Style:

Slot

End Application:

Fixture assembly, test

Thread Diameter:

0.190 inches

Thready Qty Per Inch (tpi):

32

Product Name:

Captive panel screw

Screw Material:

Stainless steel

Screw Surface Treatment:

Passivate

Special Features:

30.6 teeth in the knurled head

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A500d0
