Thread Class:

Unrc

End Application:

Hatch assembly, lpt upper

Thread Diameter:

0.250 inches

Thready Qty Per Inch (tpi):

20

Criticality Code Justification:

Feat

Product Name:

Scre, self locking, sch

Special Features:

Item shall comply with requirements of navsea ss800-ag-man-10/p-9290, system certification procedure and criteria manual for deep submergence systems.

Material:

Nickel alloy and copper alloy fastener

Material Specification:

Qq-n-286 military standard single material response fastener

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A003b0
