2a	
Thread Direction	n:
Right-hand	
Thread Length:	
	nches and 1.500 inches
Fastener Length	
	nches and 4.380 inches
Head Style:	
Flat chamfer	
Head Diameter:	
Between 1.480 in	nches and 1.500 inches
First Diameter F	rom Head:
Between 0.690 in	nches and 0.710 inches
Distance From L	argest Bearing Surface Of Head To End Of Second Diameter:
2.880 inches	
Thread Diamete	r:
1.000 inches	
Thready Qty Per	r Inch (tpi):
8	
Criticality Code	Justification:
Zzzy	
Externally Reliev	ved Body Diameter Quantity:
1	
Special Features	5:
The head is caste	ellated, equally spaced 0.286 inches apart, and the headis a hex socket
Material:	
Nickel alloy	
Thread Series D	esignator:
Unc	
Reference Num	ber Differentiating Characteristics:
Material will be in	accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:	
N/a	
Unit Of Measure	
Demilitarization	
No	
Fiig:	
A003b0
