Fastener Length:

2.250 inches

Thread Diameter:

0.750 inches

Min. Tensile Strength (psi):

150000 pounds per square inch

Special Features:

For international-harvester crawler tractors

Material:

Steel

Material Specification:

Earnalloy military specification single material response

Thread Series Designator:

Unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A003b0

Mil-std (military Standard):

spec.
