Thread Direction:

Right-hand

Head Style:

Distorted head

Head Height:

Between 0.188 inches and 0.198 inches

Width Between Flats:

Between 0.551 inches and 0.562 inches

Locking Feature:

Self-locking locking feature

End Application:

2350-01-509-3953

Thread Diameter:

0.312 inches

Min. Tensile Strength (psi):

150000 pounds per square inch

Special Features:

Ms35764e is inactive

Material:

Steel fastener

Specification Or Standard:

8 grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A003b0
