Overall Length:

0.780 inches

Overall Diameter:

Between 0.377 inches and 0.384 inches

Accessory Components And Quantity:

Spring 1, grommet 1, spring cup 1, retaining washer 1, cross pin 1

Special Features:

Cstud is of steel alloy iaw association specification qq-s-624; spring and cross pin are made of steel music wire iaw association specification qq-w-470; retaining washer is made of corrosion resistant steel iaw association specification qq-s-766, class 302, passivated per military specification s-500I; spring cup is made of carbon steel iaw association specification qq-s-700; grommet is made of aluminum alloy per association specification qq-a-325, 6061-t6, dull gray anodize iaw military specification a-862 (asg) type 1

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Mil-std (military Standard):

spec.
