Hole Diameter:

Between 0.195 inches and 0.204 inches

Outside Diameter:

Between 0.365 inches and 0.381 inches

Material Thickness:

Between 0.020 inches and 0.025 inches

Material:

Steel comp 1060 or steel comp 1065 or steel comp 1070 or steel comp 1075 or steel comp 1080

Material Specification:

-qq-s-633 canc federal specification 1st material response or -qq-s-633 canc federal specification 2nd material response or -qq-s-633 canc federal specification 3rd material response or -qq-s-633 canc federal specification 4th material response or -qq-s-633 canc federal specification 5th material response

Surface Treatment:

Zinc

Style Designator:

Flat internal teeth

Specification Or Standard:

A type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
