Hole Diameter:

Between 1.275 inches and 1.325 inches

Outside Diameter:

Between 1.921 inches and 1.975 inches

Material Thickness:

Between 0.059 inches and 0.067 inches

Material:

Steel comp 1060 or steel comp 1065 or steel comp 1070 or steel comp 1075 or steel comp 1080

Material Specification:

Qq-s-633 canc federal specification 1st material response or qq-s-633 canc federal specification 2nd material response or qq-s-633 canc federal specification 3rd material response or qq-s-633 canc federal specification 4th material response or qq-s-633 canc federal specification 5th material response

Surface Treatment:

Cadmium or zinc

Style Designator:

Flat internal teeth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
