Hole Diameter:

0.480 inches

Outside Diameter:

1.250 inches

Recess Diameter:

0.750 inches

Material Thickness:

0.188 inches

Recess Angle:

82.0 degrees

Special Features:

Counterbore 0.750 diameter to depth of 0.032 prior to 82 degrees countersink

Material:

Steel comp 1212

Material Specification:

Aisi assn standard single material response

Style Designator:

Recessed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
