Hole Diameter:

0.145 inches

Shoulder Diameter:

Between 0.188 inches and 0.198 inches

Outside Diameter:

Between 0.307 inches and 0.327 inches

Shoulder Height:

0.031 inches

Material Thickness:

0.031 inches

End Application:

W/s: communications program, combat theater (tri-tac) 4781; aircraft, viking s-3b; communication nodal control element (cnce) an/tsq-111

Material:

Plastic polytetrafluoroethylene

Style Designator:

Shouldered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
