Hole Diameter:

Between 0.516 inches and 0.546 inches

Outside Diameter:

Between 0.750 inches and 0.781 inches

External Straight Key Length:

0.500 inches

Peening Key Length:

0.500 inches

External Straight Key Width:

0.375 inches

Overall Distance Including Keys:

1.647 inches

Material Thickness:

0.040 inches

Material:

Steel comp 302 or steel comp 304

Material Specification:

Qq-s-766, cond a federal specification all material responses

Surface Treatment:

Passivate

Style Designator:

Key

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
