Hole Diameter:

0.203 inches

Shoulder Diameter:

0.413 inches

Outside Diameter:

0.812 inches

Shoulder Height:

0.052 inches

Material Thickness:

0.096 inches

Heat Treatment:

As fabricated

Material:

Steel comp 1561

Material Specification:

Qq-s-763 federal specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35, type 2 federal specification single treatment response

Style Designator:

Shouldered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
