Hole Diameter:

1.015 inches

Outside Diameter:

1.375 inches

Material Thickness:

Between 0.120 inches and 0.130 inches

Special Features:

Color no. 17875 federal standard 595

Material:

Aluminum alloy 6061

Material Specification:

Ww-t-700/6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Ps13201 type 2 class 1 fscm 76301 mfr ref single treatment response

Style Designator:

Split

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
