Cross Sectional Shape:

Rectangular

Edge Shape:

Round

Center Hole Shape:

Round

Thickness:

0.016 inches

Overall Diameter:

Between 0.270 inches and 0.280 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, alloy 6061, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Ems-241, airesearch mfg co of arizona assn standard single treatment response

Specification Data:

70210-s8157 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
