Between 0.209 inches and 0.229 inches

Distance From Centerline To Top Of Internal Key:

Between 0.943 inches and 0.963 inches

Internal Key Quantity:

1

Material Thickness:

Between 0.115 inches and 0.135 inches

Features Provided:

Casehardened

Heat Treatment:

Quenched

Material:

Steel comp 1008 or steel comp 1010

Material Specification:

Aisi assn standard all material responses

Style Designator:

Key

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
