**Locking Feature:**

Prevailing torque all metal design

**Washer Outside Diameter:**

Between 1.610 inches and 1.625 inches

**Nut Style:**

Double hexagon

**Special Features:**

Vacuum arc re-melt mandatory; magnetic particile inspection required prior to plating and subsequent to baking

**Material:**

Steel comp h11

**Material Specification:**

Ams 6487 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A021a0
