Hole Diameter:

Between 0.880 inches and 0.896 inches

Outside Diameter:

Between 1.310 inches and 1.330 inches

Material Thickness:

Between 0.095 inches and 0.105 inches

Special Features:

Consist of 2 halves

Material:

Steel comp 631

Material Specification:

Ams5355 assn standard single material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2 class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A022b0
