Hole Diameter:

Between 0.195 inches and 0.204 inches

Outside Diameter:

Between 0.365 inches and 0.381 inches

Material Thickness:

Between 0.020 inches and 0.025 inches

End Application:

Mrap rg-33

Hardness Rating:

Between 40.0 rockwell c and 50.0 rockwell c

Material:

Steel comp 410

Material Specification:

66 federal standard single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35, type 2 or type 3 federal specification single treatment response

Style Designator:

Flat internal teeth

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
