Hole Diameter:

Between 0.104 inches and 0.114 inches

Outside Diameter:

Between 0.245 inches and 0.255 inches

Material Thickness:

Between 0.0085 inches and 0.0115 inches

Special Features:

0.054 in. Radius semicircular tab on periphery opposite slot

Color:

Black

Material:

Steel comp 1561

Material Specification:

Qq-s-698 federal specification single material response

Surface Treatment:

Oxide film

Surface Treatment Specification:

Mil-c-13924 cl 1 military specification single treatment response

Style Designator:

Slotted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0

Mil-std (military Standard):

Mil-c-13924 spec.
