Hole Diameter:

Between 0.132 inches and 0.134 inches

Outside Diameter:

Between 0.340 inches and 0.350 inches

Material Thickness:

Between 0.040 inches and 0.044 inches

Heat Treatment:

As fabricated

Material:

Steel comp 302

Material Specification:

Ams 5516 assn standard single material response

Surface Treatment:

Passivate

Style Designator:

Slotted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
